Highly motivated and enthusiastic software developer with a strong foundation in HTML, CSS and JavaScript. Skilled in building RESTful APIs, using popular Node.js frameworks such as Express and working with database technologies such as MongoDB. Eager to apply my technical knowledge and problem-solving skills in a fast-paced development environment and contribute to the creation of cutting-edge web applications.

EDUCATION

B. Tech (IT)
Noida Institute of Engineering and Technology, U.P

08/2020 - 07/2023

Diploma
Pusa Institute of Technology, Delhi

05/2017 - 06/2020

Class XII
Apex Public School, Delhi

04/2016 - 03/2017

PERSONAL PROJECTS

Mighty Warrior (07/2023 - 07/2023) ⬀
- This project is created using HTML, CSS and vanilla JavaScript, no libraries or frameworks are used for JavaScript except Bootstrap.
- In this project we are able to find Superheroes details and also add and remove them from our favorites list.

Ecommerce API (07/2023 - 08/2023) ⬀
- In this project I have created an API using NodeJS and MongoDB.
- API is able to store Data of different Products (i.e., Name, Quantity) and it can be modified using API URL provided, so that the data of each Products can be Altered in real time. It is API only project.
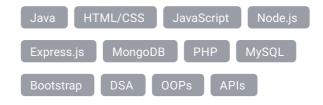

Bug Harbor (08/2023 - 09/2023) ⬀
- In this website users can post a bunch of Projects for everyone with description.
- The Frontend of this website is build using HTML, CSS and JavaScript.
- Goal of this website is to report any bug present in Projects posted by any users.

CSV Upload (09/2023 - 09/2023) ⬀
- This project is created using HTML, CSS, JavaScript and MongoDB.
- In this project I have built a simple page which will be able to upload a CSV format document.
- It will also help to view CSV files on another page and has search method to find anything in it.
